

Sit / Stand stool BALANCE

The AK-SH01 is a balance stool with a preformed ergonomic seat and is especially suitable for sit/stand work. The seat is height adjustable by means of a gas lift. The dish foot creates imbalance and gives your body an impulse to sit upright with a fairly large open seating area.

- With the paddle, it's easy to adjust the height of the stool;
- The stool is fitted with foam;
- 360° swivel: the stool can be rotated 360 degrees;
- Portability: the handle makes it easy to move the stool;
- The stool is provided with a gas lift.
